

## Conveyors and Elevators

Robust, reliable, trouble-free Conveyors and Elevators are essential for high productivity. That is why **Firstgrade** do not compromise on the design of conveyors to suit your application.

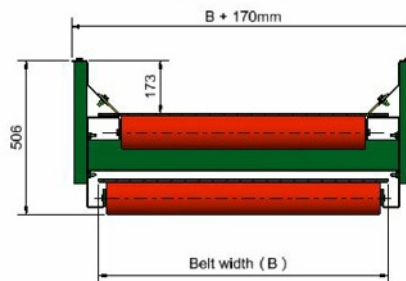

The Firstgrade 340 series use 4" return rollers, 340mm diameter lagged head drum, and are available in almost any width and length. The 140 series are a smaller conveyor for lighter applications or where space is limited.

Series 140

Series 340

STANDARD SPECIFICATIONS			
Series	Width B (mm)	Belt Speed (m/s)	Capacity* (m <sup>3</sup> /hr)
140	600 & 900	0.6	38
340	650	0.6	58
340	950	0.6	97
340	1250	0.6	136
340	1450	0.6	162
340	1850	0.6	213

\* Typical capacity in horizontal position

### Features

- Heavy duty 3-ply rubber belts
- Vulcanised endless belt
- Efficient electric motor drives
- Modular construction
- Rubber lagged head drums
- Self cleaning tail drums

### Options

- Chevron and cleated belts
- Belt scrapers for belt cleaning
- Powered cleaning brush
- Weatherproof covers
- Mounting legs and supports
- Automatic greasing
- Slip detection

### Applications

- Construction and demolition waste
- Municipal solid waste
- Compost
- Skip waste
- Wood waste

### Design, build and install

At **Firstgrade** we aim to produce the best solution for your requirements. All of our machinery is designed and manufactured in the UK. This gives us the flexibility to design individual systems to suit your specific requirements.

### Other products

- Trommel Screens
- Vibrating Screens
- Picking Stations
- Fines Refiner
- Air Separation
- Water separation
- Magnetic separation
